

A Year at a Glance - Educational Technology 2015-16

100+

Professional Development Events & Programs

Delivered over 100 PD events and programs to over 1400 educators, 6000 students, and 650 parents. Instructed on Google Apps, Digital Citizenship, website design, SLO creation, Technology Integration, Student Publishing, Interactive Whiteboard Use, Internet Safety and more (PD offerings [here](#)). Achieved an avg. 3.5/4 on survey of PD quality.

\$10Mil

Technology Bond Oversight

Advised, consulted and brought to a successful conclusion the best practice for purchasing of over \$10,000,000 in tech spending. These funds were approved by Denver taxpayers in the 2012 bond.

200+

School Technology Solutions

Launched the [Academic Technology Menu](#), a resource for schools to know what software, websites, apps and other technology solutions are available and have been reviewed by district departments, to what level those solutions are recommended and supported, as well as student data privacy guidance.

Student Email Safety Investigations

379+

Intervened and investigated over 379 student email safety issues. Collaborated with DPS Safety, Social & Emotional Learning, and other teams to ensure quick and appropriate responses.

25+

DPS Department Partnerships

Designed, developed, and implemented strategic partnerships and projects with over 25 DPS departments to improve best practices in the classroom and community engagement.

80+

Teachers Empowered in the SLO Process

Trained and supported DPS technology teachers and teacher librarians in creating over 200 SLOs (Student Learning Objectives) supporting the 2020 Denver Plan to make all DPS classrooms joyful, rigorous, and personalized.
