

Outline of Online Subscription Databases

Provided by DPS Library Services for schools

Learning Objectives:

- To increase student and teacher access to engaging, high-quality, current, online resources that align with curriculum and student interests.
- Increase teacher understanding of eResources to positively impact student reading time, access to the curriculum, and students' ability to personalize their learning.

What is an online subscription Database?

- Reliable academic **online resources** aggregated by a reputable company and accessed online through a subscription to the service.

How can Databases support learning in my classroom and my life?

- Digital access anywhere allows easy, 24/7 access to information.

Where do you find them?

You must have a user ID and password to log in to the databases.

Your **Username** is your last name only. Your **Password** is your student ID # or your Employee ID # (for staff).

To Access databases from **school** - from your school's Lion home page.

To Access databases from **home** - At the Lion home page <http://lion.dpsk12.org/>. Choose your school from Lion Home on left top, List of School Catalogs.

**Note: Each school has its own login to the BrainPop databases. Contact DPS Library Services at <http://tinyurl.com/dpsbrainpop> to get your school's Brainpop login information.*

Many databases are available to you and your students, provided by DPS Library Services: Click Online Databases on the right side of your screen to see those at your school in a list.

Subscription Databases: Standard Features

- Citations provided to view, copy & paste. A cite button is provided for each source.
- Searchable by keyword
- Sortable by year of publication, reading level, type of publication
- Save sources by sending to your email, printing, or saving to your account in the database
- Increase or decrease font size, listen as text is read to you.

Examine a typical database:
